**POWER TO HARNESS YOUR BUSINESS
TO THE NEXT LEVEL**

Enter a new virtual world and discover the possibilities of Augmented Reality with Infra Design. Introducing a new dimension of a live, direct or indirect, view of a physical, real-world environment whose elements are augmented by computer-generated sensory input such as sound, video and graphics. A fascinating technology that manipulates real world data and overlays it with computer-generated wizardry, means exciting possibilities for our clients to explore and use to capture consumer interests.

A COMPREHENSIVE DIGITAL SUITE

360° Virtual Tour is a smart solution for your customers who will be able to experience a 360 degree interior view of any property with just one touch

360° VIRTUAL REALITY TOUR

360° Virtual Tour is a smart solution for your customers who will be able to experience a 360 degree interior view of any property with just one touch. This is a time and money savvy application to let your customers explore the property of their choice on your ipad or smart phone without the need of having an actual show house.

PANORAMA AERIAL VIEW

Capture dazzling panoramas from an elevated height. By using a balloon and camera rig, we have managed to launch this fixture into new heights so our clients can present the exact views from their high-rise properties.
